Summary

About us:

The Petroleum Industry Innotech Park (PIIP) is an innovation ecosystem where the public and private sectors participate in the development of high-tech products in the value network of petroleum industry.

PIIP's missions are:

- To support and empower knowledge-based enterprises, high-tech companies as well as startups and scaleups to discover or create innovative opportunities
 - To provide innovative solutions for operational challenges of oil & gas, refinery and petrochemical sectors
- PIIP's vision is to place rank 1 among energy-specialized science and parks in Asia until 2035.

Services:

- Evaluation of knowledge-based companies for membership grant in PIIP
- Pitch, reverse pitch and match-making events
- Mentoring, empowering, and tenant services to park portfolio
- Solution provider for technological challenges of petroleum industry
- Coordinating events between supply and demand side in technology market

Revival of closed and low-productive oil & gas wells

Description: Megaproject of the PIIP; 15 active contacts among +80 SMEs
Major Partners: National Iranian Oil Company & Iran National Innovation Fund
Value: \$ 500,000,000 as venture capital investment

Large-scale Companies
